## SUMMARY

*Front-End Developer with 1+ years of experience building clean, responsive, and user-friendly web applications using ReactJs, TypeScript, and JavaScript. Proficient in HTML, CSS, and modern UI best practices. Skilled in structuring scalable projects, integrating RESTful APIs, and maintaining seamless front-to-back communication. Experienced with Redux Toolkit for predictable state management and efficient data flow. Known for writing clean, readable code focused on comfortable user experience.*

## EXPERIENCE

### Front-End Developer

**Hearify** | *ReactJS, TypeScript, Axios, ReactFlow, Heroicons, Figma, SCSS* Jul. 2024 - Jul. 2025

- Implemented a secure, user-friendly password reset flow with email verification, enhancing account safety and streamlining credential recovery to improve user trust and retention.
- Developed image upload functionality for quiz cards and quizzes, increasing user engagement by enriching content with visual elements and improving quiz completion rates.
- Delivered a customizable study planner with React Flow roadmap and module view, letting users tailor learning paths by theme, language, and difficulty—enhancing personalization and engagement.
- Resolved a wide range of visual and logic bugs across the site, reducing user-reported issues and improving overall user experience and reliability.

**Landing page for AI text humanizer** | *ReactJS, TypeScript, Figma, Heroicons, SCSS* Nov. 2024 - Jan. 2025

- Developed a functional demo form with purpose and tone selection, enabling users to humanize text with real-time conversion, custom loader, and instant output—streamlining the experience.
- Crafted a fully responsive, cross-device website delivering consistent, high-quality visuals and functionality across all screen sizes, enhancing user experience and accessibility.
- Delivered pixel-perfect website implementation by meticulously following *Figma* designs and guidelines, ensuring 100% design accuracy and enhancing visual consistency across the site.

**Notes App** | *ReactJS, Redux Toolkit, TypeScript, SCSS*.

Jul. 2025

- Developed a robust CRUD notes app following best practices, allowing users to seamlessly create, read, update, and delete notes—enhancing usability and boosting user productivity.
- Utilized *Redux Toolkit* and *localStorage* for efficient state management and persistent data storage.
- Integrated *JSONPlaceholder API* to fetch notes and implemented infinite scroll, delivering data incrementally as users scroll—improving load performance and enhancing user experience.

## AWARDS

**UofM Annual Hackathon Winner 2025** | *ReactJs, ReactCharts, FastAPI, Scrapy, DynamoDB, Git* Feb. 2025

- Played a key role in developing a full-stack application that scrapes business news, applies ML-driven sentiment analysis, stores insights in DynamoDB, and visualizes trends via *ReactJS* and *ReactCharts*.
- Developed the frontend part for a stock sentiment platform, featuring a searchable stock menu, sorting options, sentiment indicators (up/down arrows), and interactive charts with daily price data for a month—enabling real-time insights across 50+ tracked stocks.

## TECHNICAL SKILLS

**Languages:** JavaScript/TypeScript, HTML, CSS/SCSS

**Frameworks:** ReactJS

**UI utils:** Axios, React-Router-Dom, Redux Toolkit, ReactFlow, ReactCharts, Heroicons, wow.js

**Developer Tools:** Git, Docker, Figma

## EDUCATION

**University of Manitoba**

*Bachelor of Computer Science*

Manitoba, Canada

Sep. 2024 - Present (Expected May 2029)
